Newsletter

North Country Union Junior High School 57 Junior High Drive Derby VT 05829

The mission statement for North Country Union Junior High School is “To be a community that shares the responsibility for the intellectual and personal development of all learners within an environment of trust, safety, and respect.” This school year we have continued the Positive Behavior Interventions and Supports program (PBIS) to help support our mission. PBIS is a state-wide effort designed to help school teams form a proactive school-wide systems approach to improving social and academic competence for all students. Schools in Vermont have engaged in using a formal system of positive behavioral supports in their schools. The purpose of PBIS in our school is to maximize the academic and social learning of the school community through consistent, universal, proactive systems that create and maintain a safe and effective learning environment.

At NCUJHS, we believe that the character traits of **respect**, **responsibility** and **perseverance** are important for the success of all members of the school community in academics and in life. We also believe that there are certain habits which exemplify these traits. These habits can be modeled, taught and assessed so that students can strengthen the character traits to the best of their ability. Students are encouraged to follow these *Habits for Success*

- ❖ I am a **respectful** member of the NCUJHS community.
- ❖ I take **responsibility** for my success as a learner.
- ❖ I **persevere** to produce high quality work.

Our school is a Title 1 school and as such, we receive federal funds to support the learning of our students. This year we are using these funds for our professional development training in the area of response to intervention and school improvement, interventions services in reading, and software to support our efforts to reduce disruptive behavior. We think these programs work really well for kids, and we welcome your input at any time.

Important **Safety Information**

Front Door Security: School policy is to welcome all parents and adult visitors who have reason to be at the school. All visitors will need to announce themselves to the front office by pressing the button to the left of the doors in the entranceway of the Solarium. Visitors must report to the main office and sign the register. Visitors must wear a visitor's pass at all times in the building. Thank you for your cooperation with this procedure.

Safety Drills: NCUJHS conducts a variety of safety drills throughout the school year. While some drills involve evacuating the building, other drills (lock downs) may take place while students remain in the building. The school community practices these drills at a minimum of once each month.

Off Campus Evacuation: An evacuation plan is in place to be sure that our school community will have a safe place in the event that we need to quickly evacuate the building.

School Messenger: School Messenger is a rapid communication system used to notify parents in the event of a major emergency, school closings, or general events going on at school. This system will allow the school to make up to 4,000 automated phone calls in 12 minute. The system is set to deliver the message if the call is a live pick-up or if the call is answered by an answering machine. There are two different ways that we will be using the system.

Information Calls: When there is general information for parents, we will use the system to communicate with parents. We will use the system to remind parents about distribution of Parent Updates, Report Cards, permission slip due dates, snow days/delayed school days and other special events. These calls will show up on the caller ID as either the main number of the school or the Supervisory Union main number.

Emergency Alerts: In the event of an emergency situation, the system will contact your home phone, cell phone, work phone as well as all three emergency contact numbers. If you require additional contact numbers, please contact Mrs. Kirchner at 766-2276 ext. 5101. In the event of an emergency at school, you can have peace of mind knowing that you will be informed immediately by phone. In the event of an emergency, the caller ID will display **411**.

Keeping you informed is a top priority of NCUJHS. **The successful delivery of information and messages is dependent upon accurate contact information for each student, so please make certain that we have your most current contact number.** If this information changes during the year, please let us know immediately.

Important Safety Information

Continued.....

Emergency School Closings: In the event of inclement weather or mechanical breakdown, school may be closed or the starting time delayed. The same conditions may also necessitate early dismissal. NCUJHS will utilize the School Messenger system to notify parents. In the event of a school closing or delay, the system will be used to make a call to all home and cell phone numbers to let families know of the cancellation or delay. Emergency school closing will also be announced over radio stations WILE1490AM, and WMOO 92FM and some TV stations.

In the event of a two-hour delay, students should plan to catch their bus two hours from their originally assigned time. Parents who drop their children off at the school should plan to get them to school between 9:45 and 10:00am. We will begin classes at 10:22am. We will begin the day with Block 1 and move through an abbreviated schedule for that day.

In the rare event of inclement weather or mechanical breakdown during the school day, it may be necessary to close school during the school day. This would be a very rare occurrence. Emergency school closings will be announced over radio stations WILE 1490 AM, on WMOO 92 RM and some TV stations. In the event of an early school closing, we would make announcements to notify students of that information. We would offer students opportunities to make phone contact with parents to make after-school arrangements. It is always a good idea to have a conversation with your child about what plan you would want to put in place in the rare occurrence of an early school closing.

2017-2018

Announcing our Summer Offerings!

These opportunities are available to all incoming 7th and 8th graders. Registration is required, forms are available outside the front office.

Movie Making Summer Camp: Come learn how to make and edit short documentaries, PSAs and videos. Learn how to use GREEN SCREEN technology. (June 26- June 30)

Food for Thought: Sponsored by the Vermont Humanities Council **program offered for a total of 12 days: 3 days a week for 4 weeks) (July 5-7, July 11-13, July 18-20 and July 25-27)

Space in these programs is limited, please complete the registration forms and return to the NCUJHS promptly

Our NCUJHS Yearbook distribution party was held on Tuesday, June 13. There may still be copies available for sale—please check with the front office or with Mr. Storrings. Our 2017 yearbook is 60 pages of FULL COLOR coverage, with a colorful hard cover.

Every NCUJHS student is included in an action photo at least twice! This year's book costs \$25.00.

E-CIGARETTES: 8 THINGS EVERYONE SHOULD KNOW

E-cigarettes are advertised as a safer cigarette. But is this really true? Here is what you need to know about e-cigarettes.

1. E-cigarettes (or electronic cigarettes) are battery-operated devices people use to inhale nicotine.

- They often look like regular cigarettes.
- They give off a vapor instead of smoke. The vapor comes from heating a liquid.
- The liquid usually has nicotine and other chemicals.

2. The nicotine in e-cigarettes is addictive.

- Most e-cigarettes have nicotine, just like regular cigarettes and other tobacco products.
- Nicotine is very addictive.
- Once you start, it is very hard to stop.

3. The chemicals in e-cigarettes may harm your health.

- Tests show some e-cigarette liquids have toxins.
- Some of these toxins are known to cause cancer.

4. Nicotine poisoning is a risk.

- Pure nicotine is a poison that can kill.
- There are no rules for safety labels or childproofing on e-cigarettes or the liquid refill packs.
- This puts children and pets at risk.

5. E-cigarettes are not regulated.

- The nicotine and other chemicals in one brand can be much higher or lower than in another.
- Tests have shown nicotine is in some brands that claim to be nicotine-free.
- People who buy them do not know what they are really getting.

6. The vapor is not harmless.

- The vapor that a smoker exhales is more than just water. The vapor emitted has been shown to contain nicotine and other toxic chemicals such as formaldehyde.
- When you breathe in e-cigarette vapor, you are breathing in these chemicals.

7. E-cigarettes can keep you hooked on tobacco.

- People who sell e-cigarettes claim they can help a person stop smoking. But there is no proof this is true.
- In fact, some studies suggest they may keep smokers hooked.
- They may also cause people who have quit smoking to start again.

8. E-cigarettes make it easier for kids and first-timers to try smoking.

- E-cigarettes come in many flavors. The flavors may make them easier to try.
- Some of the flavors – such as grape, strawberry and fruit punch – look like they are made to attract kids!
- The sweet flavors still have nicotine.
- Once a person gets hooked on the nicotine in an e-cigarette, they may try other tobacco products too.

E-cigarettes are advertised as a safe way to smoke. But is that really true? Look inside to get the facts. To learn more, visit: BeTobaccoFree.gov
